

PILGRIMAGE OF INCARNATION with ATUM O`KANE

Sufi Center Omega, Zürich - 4.- 6. November 2022 / 5.-7. Mai 2023

*When death comes, I will step through the door, full of curiosity and wonder.
When it is over, I want to say, I made of my life something real and particular*
Mary Oliver

There are times on our path of human incarnation when “something” opens one with awe. We sense the profound meaning and mystery of our life and being. We sense who we have become and are becoming, as our soul unfolds its divine qualities, states, gifts, and archetypes into our personality, our journey, and the world.

A pilgrim makes an outer journey to discover something sacred that already lives within us. Some traditions use the symbol of the Divine seed to convey the innate potential that is carried in the soul. The call to a human incarnation is the means to realize and manifest that divine potential. In Buddhism, of all the six realms of incarnation the human one is considered the most conducive for enlightenment. The Dalai Lama speaks of the preciousness of a human life and Sufism accents the privilege of a human incarnation.

The pilgrimage of incarnation is an honoring of your journey from two perspectives: The call of your Soul into a human life, and your humanity seeking to discover your Soul.

What is your soul's dream? How will you greet death at the end of your time here and what purpose will you have created with your life? We're diving into some big questions these weekends.

In this training we shall explore the profound transformation we are living through, by identifying core elements of planetary consciousness. We shall engage visionaries in different traditions that are helping us find and trust the way.

During the ***Pilgrimage of Incarnation*** program, teachings and practices will be shared that orient us to foster these states of peaceful wellbeing. In the training we will honor our embodiment and that of the Earth with a ritual of remembrance, ecstasy, and gratitude.

So long as one knows one is a carrier of life, and that it is important to live, then the mystery of the soul lives also. Carl Jung

Atum o`Kane is the founder of the Spiritual Guidance Wisdom School, teaching inter-faith programs with a background in Christian, Jewish and Buddhist faith traditions, and leading people on an inward journey of exploration and spiritual discernment.

Praktische Informationen *Practical informations*
